Showcase

AIA File No. _____

Nemco's Showcase is more than just a heated merchandiser. These new contemporary models feature a French curved glass case that will enhance the presentation of your food product and increase impulse sales. Choose from two models designed to hold either two or three full size steam table pans or any other equivalent combination. An optional top shelf allows you to increase the units' holding capacity. The cases are well illuminated with a fluorescent tubular light. All units are thermostatically controlled to hold food at just the right temperature, and include a large water reservoir that provides humidity to keep food fresh and moist for hours. The convection fan circulates heat evenly throughout the unit and temperature is measured in both Fahrenheit and Celsius to meet the needs of world wide customers. These convenient, multi-purpose display cases are an ideal choice for applications in food courts, kiosks and coffee shops.

Standard Features:

- Constructed of brushed Stainless steel and tempered glass
- Sliding glass doors for rear access can be removed easily
- French curved glass that tilts forward for ease of cleaning
- Holding temperature range of 100-220° Fahrenheit
- Thermometer gauge in Fahrenheit and Celsius
- Metal sheath elements located in base unit
- Extra large reservoir for humidity
- Equipped with a convection fan to distribute heat evenly
- Adjustable four inch legs
- Six foot cord and plug provided
- One year parts and labor warranty

Optional Features:

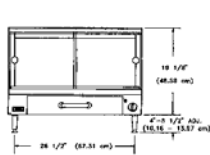

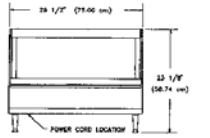

- Chrome plated top shelf
- Solid stainless steel base
